### Boyfriend Jeans

These jeans are so chic in the most rugged way. The loose fit is great during hot weather because the jeans won't stick to your skin in an uncomfortable way. Opt for a slightly distressed look and roll the cuffs up. Pair these jeans with cute heels to create a more elegant look and emphasize your legs.

### Chambray Shirt

The softer, denim-looking shirt has slowly made its way as our go-to outfit. Chambray is so versatile it can be styled with pants, leggings, shorts or skirts. For a casual look, leave the shirt open and wear a long, colorful tank underneath or button it all the way and add a statement necklace.

## Crop Top

A little twist on the denim style, a denim crop top is the hottest trend yet. Crop tops are so in right now and the denim creates a fashionable statement that is different from other midriff-baring tops.

### Dress

Denim dresses are so cute and sweet. Denim creates such a casual look and dresses are an easy way to keep cool and catch those summer breezes when it's unbearable outside. To brighten this look, add touches of color like a bold purse or bright flats or sandals.

### Denim Skirt

Remember when the denim skirt was a big hit? You can still rock this look with a few alterations. An asymmetrical panel in the front is a hot style this year. Or look for denim skirts with an edge like metal buttons down the front—they totally renew the old trend.
